**Full 5 Year Warranty on parts and labour**

The Onsen ET series reverse cycle offers effective heating and cooling no matter what the climate. Combining an infra-red remote with auto swing control, the Onsen ET allows temperatures to be adjusted quickly and easily from a distance. The unit also comes with intelligent defrosting technology to prevent freezing in cooler environments.

### Dustproof Filter

Filter traps microscopic particles and decomposes odours ensuring cleaner and fresher air.

### iSensor

The iSensor feeling button on the remote allows the temperature setting to be stored in memory to recreate the ideal temperature in your space.

### Silencing Technology

Innovative technology designed to reduce indoor and outdoor noise.
